CD_ORADO.

To horrow the expression of a well-known writer, the o horrow the expression of a well-known writer, the Territory of Colorada straidles the Rocky Rountains like a saddle—a part of it bring on their easiern flant, a part on their western flank, and a part of it bring taken up by the mountains themselves. "It lies hetween the 37th and the mountains themserves. It has netween the 37th and 41st paral els of north actrice, and the torind and reoth meridians of west forgunde, being bounded on the north by Wyoming and Nebraska, and on the rate by Nebraska and Naucas, and on the south by New Mexico, and on the wist by Utah. The area embraced formenearly a square, and the state of the state wast by Utah. The agen embraced forms nearly a square, containing about 196,475 square niles, or 57,400,000 acres — a greater extent of country than all of Great Reitain, with a co. only or two imbreded, and quite as large as New York, Pannsy vania; and Massachusetts, with New ensey thrown in for good measure."

For many reasons, Coorago is one of the most remarkable sections of country on the face of the carth.

Though not geographically, it is, really, the centre of the Forth American Continent. Up the its giant peaks, where is a gradual slood on every side, from the Atomic on the east, the Pacific on the west, the Cialf of Nex-co-on the south, and the confices of the Polas Sea on the north. The dwellers on its ' plants" or lower lands, live, on the average, about a m lei above the level o' the sea; whilst those who live in its "countrie towns," are lifted still

mearer heaven.

The man who had "a while is dwn" (sign't get on very well at home, because its wile had a diously cheering and, teathful. The clear air had the diously cheering and, teathful.

The resources of the country are almost limitless and in-Its mountains are sea sed and streated with precious wealth of all kinds - go dand silver, copper and lead, coal

The progress of the Stock Interests of the county may be gathered from the following figures taken from the Asigsgathered from the following figures taken from the Assessor's reports for 1871 and 1572: In the formed year there were 779 horses, 190 miles, 5.731 fows, 2.311 form, 3.032 sheep, and 535 swine. In 1872, there were 960 horses, 36 miles, 5.035 cows, 1.143 oyes, 6.535 colves, 50334 sheep, and 103 swine. Last year, 114 woodlerop of 150 county armidized to 1881 tounded. amounted to 174,812 pounds.

de Lumber Trade is an important part of the lineiness of the county, there being fourteen mills constantly engaged in it, and more timbersland in all Paso county transmissy other county in the Tharnory.

COLURADO SPR NGS.

The town of Colorado Sprage is saturated in the centre of Paso county, at a point v here it e Monument Greek um as with the Postume trui soulde, and where the Ute Pass opens upon the plains.

. It is a principal station on the Denver and Rice Grant e Railway, eventy six miles solub of Denver the intropo-hs of the Terratory, and forty-wo miles north of tueblo. The town takes its name from any dernus vanishable miner-

als; mays in the immediate neighbothood. The uses important of these are gro fped teget for about five index to the west, in a beautiful glen, to which has been given the name of Manuton. These are the celebrated. Boding ,which, years ago, vere made known to th Springs," which, years ago, were made known to the work by Fremont, Ruxten, any other ariters. If amerly they were visited on account of theur, redicted virtues by the native tribes of Indians, who regarded them as supernatural phenomena caused by the direct action of the Green Spirit. In latter times, neatwithstanding the difficulty of access to them, their family has attracted large numbers of invalids, anxious that year large sums of money have been expended in laying out and account the proposition to expended in laying our and according the gradual in the origine shoot; a handsone, commodores, are confortable hotel has been built, bath h uses have been ditted up. the hotel has been mult, camen uses mayor been much up, and many other conveniences provided. Now that there famous springs are so easily accessible, and that every provision has been made for the comfort of visitors, there can be no doubt that a few year, will suffice to make them as at ractive a point as is Serato, an the East. Tiousands will throng to them every year and many wil take up the manent aboves around them. The springs are seven mainteer, and are useful both for drinking and Lathing purposes, being highly beneficial in rheumatism, skin diseases, general deality, and humerous other laiments which we need dotestat page.

which we need not-cata patie. In addition to these wonderful springs, some of the most remarkable and magnificent sectory on the American Con-tinent is in proximity to the lower

Directly in front is Pike's Pcies, the most celebrated of the Hocky Manntains, rising to a neight of unwards of 14,000 feet above sea level, its head covered with snow alf 14,000 feet above sea level, is shad covered wit snow alf the year. Right and left of the Peak is a long range of "Fout Fills" lofty mountains hey would be termed in any other land, "infinitely diversified with variety of form and outline, with rocky crags are tumbled boulcars and smooth slopes, with constant play of light and shade, with contrast of rich and sombre colors, with streaks of snow and cark groves of pine"—the whole firstning a panorama of exceeding beauty, of which the eye never tires.

Three miles from town is the wonderful and famous Garden of the Goos," in which nuge rocks, hindreds of feet high, and of the most familiate solves, and gorgeous colors; orm a scene which excess the wonder of a who colors, form a scene which excess the wonder of a who behole it. Close to the Garden "Glee Eyrie," with its Queen's Canon, equally wonderid and beautifu. Five miles in the southwest of the lowir is "Caeyanne Caron," a magnificant gorge, whose studendots was of roci and beautiful waterfal's give it my a most unrivaded grandent. Twelve miles north in "Monument Park," studect with groups of holy columns of sandstone, which ook has obesiste of some hygone race of giant. Immediately reyone, hantou, are the Rainbow Clem, the Canon are Tala of the Formatin, and the Jue Pass. Indeed in all directions, are scenes of grandeur and of beauty. "The at vantage of this point," says a recent wirey, "is that it less you at once into the reart of the mountains."

The Springs and the Scenery combined are described, of themse ves, to but d up a town of quasicentale size an importance. Yere will be a place of resont—of almost unportance. The will be a pince of resolution almost imequaler attractions known the work over, hast year
brought bousancs of visitors, from almost every Sinte in
the Union, and from foreign lanes, and each succeeding
season with bring an increasing throng; whilst thany, who
are in seaton of realts, have attenty chosen it as their permanent some, and many more wit settle here in overr to
secure the same inestimable boom.

Everything researche is being done to neighten the attractive examples on a spot on worth Nature has bestowed so mary advantages. It is intended to make Colorado Springs not only amous as a Sancar ting but also as on settlest onal centre, and a some of which stocket, ange reservations have been made for so too and indiced institute. tutions; and the court, although site in its infancy, has uncertaint the erection of a cost radion louise. Wice street spe avenues and spacious squares have been an our ani mouseurs of trees have been above.

Seamitying the town of creeting public miletary, and of constructing necessary public works. The town is a Colony Town, and the woole of the productive from the cale of the Colony Lots and Londs, are appropriated to public improvements. The hast saying seen long it is argued lots at advanced figures, and being some to colonists in small lots at advanced figures, a may themsands of to are will thus be developed to the introcer named. will true be devoted to the purposes named.

Persons may recome co mists by mire using certificates

Persons may recome co mists by mrc taking certificates of membership, which are of our graces according to the privilegen conveyed: \$50, 175, 1250 [200. A certificate entities a member to locate certain, ots and airds. These are of three denominations: "lissness tots," as eet by 190 feet, ranging in prices from 1 100 to \$250; "Aesidence tots," so feet by 190 feet, and 100, eet by 190 feet, ranging in prices from 550 to \$50; "Ith thing "facts," of the following sizes and prices: Our core tracts, \$150; five acre-tracts, \$250; ten-acre-tracts, \$50 to \$50 an acre-twenty-acre-tracts, \$250; ten-acre-tracts, \$50 to \$50 an acre-twenty-acre-tracts, \$250; and tracts, \$150 feet for \$50 an acre-twenty-acre-tracts, \$250 certificate entities its nobleg to locate a \$50 residence tot; a \$75 certificate, any residence lot tree-spective of price; a \$150 certificate, to locate a husiness and residence lot, or a banness lot and outlying tract, or a residence lot and outlying tract, provided the tota value of the lands located does not exceed \$500; a \$500 certificate, to locate similar lots it the previous, but irresperive cate, to locate similar lots is the previous, sur irrespective of price. The amount paid for the certificate is credited for the lots incater, and the hampe if the value of the lots exceeds that of the certificate team is paid any time within twelve months of the location is rof the first location, if more than one is made upon the same certificate!. Members may take out as many certificate: as they please, but are boune to make one improvement that is to put that a touse, or make some equivalent expenditure for each certificate, within fear most is of making the first section upon it. Upon this being lone, and payment of the lots completed, deeds are given conveying full title, with one condition, however—that no interdiring liquous stall ever be sold on such lots in any prefaints having the character of a place of white reloct; breach of this condition involves forfeiture of the property.

The lands about the Town, of which the Colony possess bout 10,000 acres, are excellently also used for cultivation. A great portion is almost as that as a table, with an excooding yelight-slope, so that it can be irrigated with the nimos ingly sightshope, so that it can be irrigated with the atmost facility. Irrigating canads have been constructed, and large respreasis for the purpose of storing water as an insurance against exceptionally dry seasons. The locality and the soil are especially satisfied for the cultivation of small fruits, and for these a ready market will be found. In addition to the supply required by the Town, and by the mines not far away, a company loss been formed for the purpose of establishing of from grown such exceed the consequence consumption. iome consumption.

The progress altendy made by the Town, has been usen usingly rapid. Us to discount in the more than high teen months from the comment of the enterprise -there have been 505, certificates of my thership taken out, on mest of which two locations have been made. The repulation, according to the neurost estimate we form, is between fifteen and eighteen hundred. various institutions necessar; to a well ordered communi-ty, have been quickly get into working orer. There are two churches built, pae in course of creetion, and another very shortly to be communed, wit public schools, a lyceum, a newscaper la postoffied, a telegraph office, a and three or four drige hire k, printing a length office, a mak three or four drige hire k, printing hourding houses, stores of all kinds, well stocked howhere the disturbed as well as the necessaries of life can be bettimeted herry stables, etc. the Town has been or an real with trusties and other officers, and several companies have been furned for the tosecution of important commercial uncertakinga-in chading a steam saw mill in active operation, brick-man pfacture, fruit-canning, etc.; a short, the basis has been well laid for growing progress and prosperity,

To such, therefore, as are seeking new homes, Colorado Springs offer advantages of the highest order.
